

Recognized Expertise and High Performance Services specialized in GPCR assays,
such as our *Rat CB₁* and *CB₂* cAMP HTRF™ assays.

- CP55940 EC₅₀ = 1 nM
- ACEA EC₅₀ = 25 nM
- AM251 IC₅₀ = 3 nM
- AM630 IC₅₀ = 573 nM

*Cost Effective and Timely Results !

Michel Dethoux*

- CP55940 EC₅₀ = 5.1 nM
- L-759,656 EC₅₀ = >1 μM
- JWH-133 EC₅₀ = 21 nM
- AM630 IC₅₀ = 7.6 nM
- AM251 IC₅₀ = 6.7 μM

- Development of functional and radioligand binding assays for HUMAN & ORTHOLOGOUS GPCRs for your specific programs
- Additional assays available to discriminate and characterize agonists, antagonists, inverse agonists for both HUMAN and RAT CB₁ and CB₂
- One of the largest catalogue available for **functional and radioligand binding assays**, including putative cannabinoid GPR55

**PERSONALIZED SERVICES ACCOMODATING YOUR SPECIFIC REQUESTS
SHORT DELIVERY TIME WITH HIGH QUALITY & COMPETITIVE PRICING**
